Activity Report

Date and Time	13-01-2023 at 2.00PM – 5.00 PM
Name of Activity	One Day Workshop on GIT & GITHUB
Type of Activity	Technical Activity
Target Audience	3 rd Semester CSE Branch students
Number of Audience	26
Activity In-charge	Prof. Prasanna Patil

About the Activity:

One-day Workshop on "GIT & GITHUB" was organized for 3rd semester students of CSE by STAC, CSE Dept, IIT Nidasoshi. Objective of this event was to give awareness among students regarding the tools used by IT industries to complete the task of real-time projects in collaboration.

The importance of GIT is, it is a version control system, which tracks the history of changes as people and teams collaborate on projects together. As developers make changes to the project, any earlier version of the project can be recovered at any time. GitHub hosts Git repositories and provides developers with tools to ship better code through command line features, issues (threaded discussions), pull requests, code review, or the use of a collection of free and for-purchase apps in the GitHub Marketplace.

During the session, there was question and answering session, where many students asked questions regarding implementation, installation, procedure to push, pull and so on. The resource person clarified all the queries from the students. The session was very useful to the students, wherein students understood how projects are built in collaboration with different developers of IT. A total of 26 Students attended the event and got benefitted.

Sl. No.	Objective of the Activity	Relevance to POs
1	Modern Tool Usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.	PO5
2	Individual and Team Work: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.	PO9
3	Project Management and Finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.	PO11
