Justification:

1. Justification for Mapping of POs

Mapped POs/ PSOs	Weightage	Justification
PO1	3	This activity addresses substantially the intersection of engineering, entrepreneurship, and IPR is a powerful combination that can drive innovation, protect ideas, and create successful business ventures. By fostering collaboration and interdisciplinary education, stakeholders can enhance the potential for new technologies and entrepreneurial success.
PO6	3	This activity highlights substantially the interplay between engineering, society, entrepreneurship, and IPR is vital for driving social progress and economic development. By fostering a culture of innovation that emphasizes ethical considerations and societal impact, stakeholders can create solutions that benefit both individuals and communities, while also ensuring that inventors and entrepreneurs are rewarded for their contributions.
PO7	3	This activity highlights substantially about intersection of environment and sustainability with entrepreneurship and IPR is crucial for fostering innovation that addresses pressing environmental challenges. By supporting green entrepreneurship and ensuring robust protection for sustainable innovations, stakeholders can drive economic growth while promoting environmental stewardship. This collaborative approach can lead to a more sustainable future for businesses and society alike.
PO8	3	This activity addresses substantially interplay between ethics, entrepreneurship, and IPR is vital for building a responsible business landscape. By emphasizing ethical practices and ensuring that IPR is used fairly, entrepreneurs can create sustainable ventures that contribute positively to society while fostering innovation and trust. This holistic approach not only enhances business success but also strengthens community and societal well-being.
PO9	3	This activity highlight substantially integrating individual efforts with team dynamics is essential for entrepreneurial success and effective IPR management. Individual creativity fuels innovation, while teamwork ensures robust execution and protection of intellectual assets. Understanding the interplay between these elements can lead to a more comprehensive approach to building and sustaining a successful business.
PO10	3	This activity highlights substantially effective communication is vital for both individual contributions and team dynamics. Individuals enhance their communication skills to express ideas clearly, while teams create an environment that fosters collaboration and feedback. Understanding how these elements interact can lead to more productive and harmonious work relationships, ultimately driving project success.

PO11	3	This activity involves substantially integrating project management and finance with entrepreneurship and IPR creates a comprehensive framework for driving innovation while safeguarding intellectual assets. Effective project management ensures that entrepreneurial initiatives are executed efficiently, while sound financial strategies support the development and protection of valuable intellectual property. This synergy is crucial for building sustainable and competitive business ventures
PO12	3	This activity highlights substantially Lifelong learning is essential for entrepreneurs to thrive in a competitive environment and effectively managing intellectual property. By continuously updating skills, adapting to changes, and fostering innovation, entrepreneurs can leverage IPR as a strategic asset to enhance their business success. This integration supports sustainable growth and long-term viability in an ever-changing landscape.

1. The activity mapped with PO1, PO6 PO7, PO8, PO9, PO10, PO11 and PO12 was found satisfactory with attainment level of 2.707, 2.707, 2.707, 2.707, 2.707, 2.707, and 2.707 against the Mapped values during the impact analysis.
2. **Conclusion:** The activity organized to fulfill the program outcomes engineering knowledge, engineer and society, Environment and sustainability, Ethics, Individual and team work, Communication, Project management and finance and lifelong learning and PSO1, PSO and PSO3 has mitigated the gap identified satisfactorily to some extent.
3. **Future Suggestions:** Such activity promotes as the landscape of entrepreneurship continues to evolve, proactive measures to enhance the understanding and management of IPR will be crucial. By investing in education, resources, and collaboration, we can create a robust ecosystem that supports innovation while safeguarding the rights of creators.
