Appreciation Letter

This is to appreciate Miss.Triveni Benawadi for conducted awareness program for the period 1st September to 14th September on "waste Management" in this area.

You have provided very good information about proper disposal of waste by presenting poster drawings and explained about proper segregation of waste in to different dustbins to the people.

The information given by you was very useful to your neighborhood people and they understood about methodologies to be followed for proper disposal of wastes.
