Description of Activity: A workshop on "PCB Designing and Testing" was arranged by ECE Department for 3rd Semester ECE students from 16/12/2021 to 19/12/2021 which was delivered by Mr. Tulasidas Salunkhe, Electrosal Hi Tech Pvt. Ltd. Nipani. In this workshop he gave tricks on PCB designing by using eagle software.

The workshop focused on the basics of PCB designing tools. Students used Eagle PCB tool and completed various activities based on PCB designing. The same tool can be used for designing the schematic layout of the circuit which can be then converted into an equivalent PCB design. At the end, students successfully completed their PCB designs. After the session on design, the participants were taught PCB fabrication process and the steps involved in PCB designing printing, etching, drilling, and component mounting, soldering and testing of circuits. Further these designed circuits were printed on the copper clad for the fabrication process. Next session students did component mounting, soldering and testing. Next sessions highlighted on how to generate a Gerber file. Last session was an interactive one and also gave their feedback.
