Sub: Branding Support - Industry-Academia Collaboration

21 December 2021

Dear Dr. Kamate,

Greetings from Bosch!

Thank you for sending the Acknowledgment letter from your institution. We are happy to welcome your institution to collaborate with Bosch as a part of our CSR Industry-Academia Collaboration initiative.

I am sure you will agree that this opportunity of working together on skill development is in line with the New Educational Policy-2020, which emphasizes the strategic and sustained inclusion of vocational skills in all educational spectrums.

With Bosch's expertise in skill development since 1961, reinforced by the President of India's "Best Establishment Award" 54 times for its technical trade training programs, followed by prestigious awards such as the FICCI CSR Award for employability skill development excellence for our flagship program "BRIDGE", we are confident to be a reliable partner in your efforts on skilling the youth.

With reference to our provisional empanelment letter, we are pleased to provide 6 posters as support by way of some branding for Industry-Academia collaboration at your institution.

We look forward to an impactful journey ahead.

Thank you.

With warm regards,

Dr. O. P. Goel

Senior General Manager
Head - Bosch India Foundation
CSR & Skill Development

Acknowledgement

We have received 6 posters for Industry-Academia Collaboration initiative.

Our ref

Dear Sir/Madam

The Bosch Group, a leading global supplier of technology and services, comprises roughly 440 companies in 60 countries. This includes 14 Bosch group companies in India. For over 60 years, Bosch in India has developed extensive expertise in the realm of occupational training. Since the establishment of Bosch Vocational Centre (BVC) in 1961, Bosch has successfully implemented the German 'Dual' Model of vocational training suited to Indian industry requirements.

In line with the direction given in the National Education Policy'20 and to support the agenda of 'Employable Vocational Education and Skill Development' in higher education, we are planning to support few selected Universities/Colleges/Institutes as a part of our CSR- Industry Academia Collaboration initiative.

The course contents developed by us towards the following topics will be provided to the selected educational institutes and one of the trainer will be trained, online, to deliver the material to the interested students. Have conceptualized following two initiatives and are in the process of identifying few interested and committed academic partner institutions, who wish to implement the same. We believe that each student in our country should take up these courses.

- I. Skill Entrepreneurship for youth
- II. Future Human Competencies (Future Skills)
- III. The making of a developed country (Soft Skills & right attitudes)
- IV. Social Responsibility

We are enclosing an 'expression of interest' form herewith. If you are interested to get more details about this initiative, please fill up the form (Interest letter), provide the contact details of one person from your institute and send this form through mail to us at csr@in.bosch.com.

Thanking you and looking forward!

Best Regards,

Dr O P Goel

Head – Bosch India Foundation,
CSR & Skill Development

Activities

Impact Analysis on Feedback

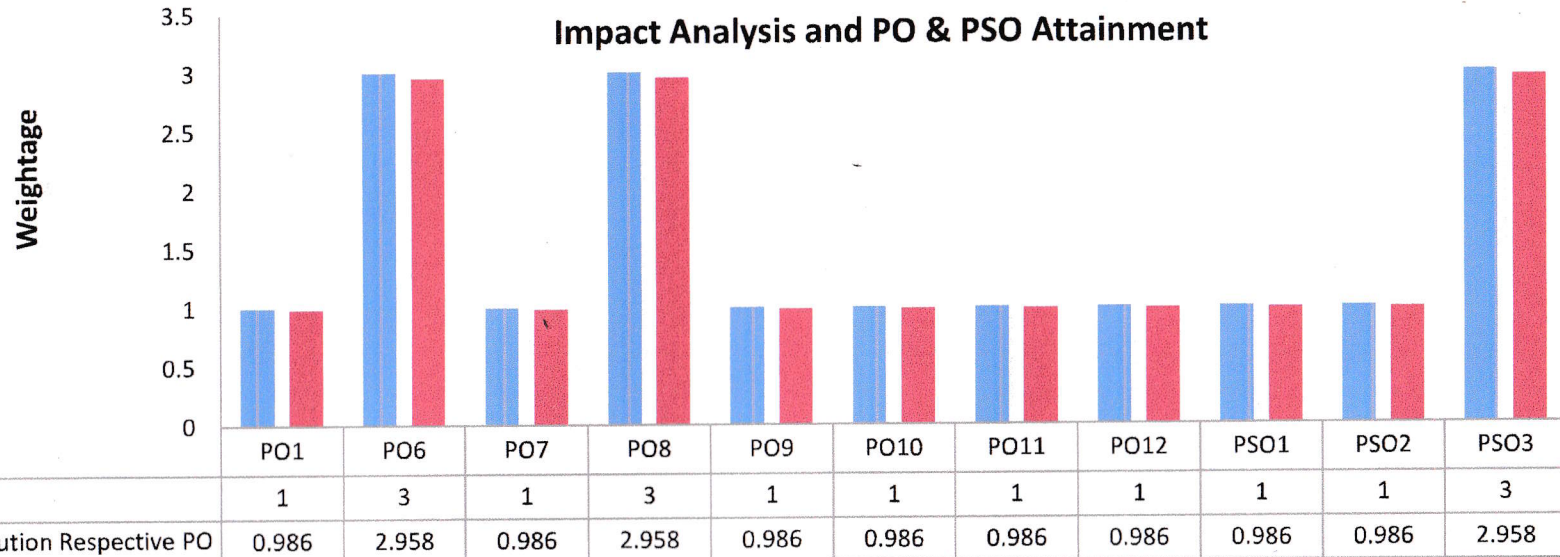

AY:2021-22

Impact Analysis and PO & PSO Attainment

Activity Name: Virtual Training Programme on Nation Building Attitudes & Behaviors Under CSR
No. of Respondents (N): 29

Grand Total Points given by all respondents (T): 1431
Impact Coefficient (IC=0-1): Here, $IC = T / (N * 50) = 1431 / (29 * 50) = 0.986$

Mapped PO/s & PSOs	Weightage Assigned (1/2/3)	PO Attained/Activity Contribution to the respective PO (IC*Weightage Assigned)
PO1	1	0.986
PO6	3	2.958
PO7	1	0.986
PO8	3	2.958
PO9	1	0.986
PO10	1	0.986
PO11	1	0.986
PO12	1	0.986
PSO1	1	0.986
PSO2	1	0.986
PSO3	3	2.958

Justification:

1. Justification for Mapping of POs & PSOs

Mapped POs/ PSOs	Weightage	Justification
PO1	1	This activity moderately helps to develop an understanding of the fundamental elements such as Problem-solving, critical thinking, creativity, leadership, collaboration, and communication in design thinking projects.
PO6	3	This activity supports the growth and development of a country's economy as well as in improving the quality of life for citizens
PO7	1	This activity moderately highlights that engineers are the backbone of nation-building and the purpose of engineering is to innovate, design, create and maintain products, systems, and equipment for the benefit and wellbeing of humans.

PO8	3	This activity moderately highlights the code of ethics for engineers to ensure that they remain honest in all their transactions.
PO9	1	This activity highlights working collaboratively helps team members to learn and develop, as they share ideas and experiences for nation-building.
PO10	1	This activity accelerates teamwork and encourages communication, trust, support, and a positive working environment – all-important for nation-building.
PO11	1	This activity highlight involves the identification of project goals and milestones as well as the development of multiple scenarios and contingency plans for nation-building.
PO12	1	This activity highlights help to improve both engineering professional and personnel life, leading to increased happiness and fulfillment as well as to an increased money-making potential over the years.
PSO1	1	This activity highlight encourages collaboration, flexibility, curiosity, and positivity, creating excellent teams and positively influencing the outcome to build a nation.
PSO2	1	This activity enlightens the importance of personal attitudes and behavior to build a nation.
PSO3	3	This activity substantially highlights the ability to understand and address current issues of industry and relevant technological changes are very essential to developing the country.

- The activity mapped with PO1, PO6, PO7, PO8, PO9, PO10, PO11, and PO12 was found satisfactory with attainment levels of 0.986, 2.958, 0.986, 2.958, 0.986, 0.986, 0.986 and 0.986 against the mapped values during the impact analysis.
- The activity mapped with PSO1, PSO2 and PSO3 were found satisfactory with attainment levels of 0.986, 0.986 & 2.958 against the mapped values during the impact analysis.

Conclusion: The activity was organized to fulfill the program outcomes engineering knowledge, engineer and society, Environment and sustainability, Ethics, Individual and teamwork, Communication, Project management and finance, and lifelong learning.

Future Suggestions: The personality development classes, yoga, and sports are supports our student's in terms of academic performance, the quality & stability of social relationships, and physical health & mortality.
