| 3 | Activity/Event Organizer/s or Coordinator/s: | Dr. S. N. Topannavar, Professor and HOD, Mechanical Engineering Department, HIT Nidasoshi | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 4 | Title of the Activity/Event: | Industry Visit at Rajeev & Rao Company, Belagavi | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 5 | Date: | 04-06- 2022 | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 6 | Venue: | Belagavi, Karnataka | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 7 | Objectives: | 1. To understand the working principles of ball valves, cutting tools, and industrial valves. 2. To understand valves, face cutters, and valve fittings. 3. To understand layouts of industry. 4. To Understand the manufacturing of valves by using CNC machines 5. To understand the importance of valve selection in the mechanical engineering domain. | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 8 | Activity Outcomes: | 1. Proper valve selection is critical for the ideal operation of any system. Improper valve selection can cause system underperformance or failure. The greatest problem when selecting valves is incorrect information. 2. Application of valves such as starting or stopping the flow, regulating or throttling flow, preventing backflow, or relieving and regulating pressure in fluid or gaseous handling applications. | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

Industrial Visit

Permission letter

2021-22 (Even Sem)

Date: 28-05-2022

To,

The Principal,

HSIT, Nidasoshi

FWD Through: HOD, Mechanical Engineering Department.

Respected sir,

Subject: Seeking permission for Industrial visits during 1st to 4th June 2022 reg.

We the students of 8th Semester Mechanical Engineering Department are interested to visit the industries, Divgi Industries Private Limited, Banavasi Road, Sirsi and Rajeev & Company, Belagavi during 1st to 4th June 2022. So, we kindly request you to permit us for the same. We enclosed the duly signed list of students & staff and industries e-permission letters.

We hope you will do the needful.

Thanking you sir,

Yours faithfully

Arun

Dear sir,

With reference to the telephonic conversation with Dr. S.N. Topannavar, Professor & HOD, Mechanical Engineering Department, Hirasugar Institute of Technology, Nidasoshi.

As per Academic Curriculum of VTU, Belagavi, I am hereby seeking permission to visit your esteemed industry for final year students on 4th June 2022 at 04.00 PM. So I kindly request you to permit us to visit your industry and details of staff and students attached herewith.

With Regards...

Dr. M. M. Shivashimpi M.Tech., Ph.D.

UNDERTAKING

I the undersigned Mr/Ms. Arun. C. Tubache studying in 8th Semester, Mechanical Engineering Branch of Hirasugar Institute of Technology, Nidasoshi, interested to participate in industry Visits of Divgi Industries Private Limited, Banavasi road Sirsi and Rajeev and Company, Belagavi on 04/06/2022. I will obey the respective rules, regulations of the Institute and company and spot instructions given by the concerned authority during the visit without fail. I have undergone Medical checkup and fit to participate in Industry Visit. If anything happens wrong with me during the journey, I only responsible. The institute or the faculty of the institute is not responsible for any kind of damage or accidents or uneven things happen with me. I will not claim any kind of damages from institute. I have taken prior permission from my parents to participate in the above said event.

1. About Rajeev and Rao Company:

Rajeev and Company are manufacturing and exporting of Ball Valves under the brand name KAVAATA VALVES with head office at Belgaum Karnataka. We are an ISO 9001:2008 company and renowned for high quality high precision low torque ball valves. Incepted in the year 1996 Rajeev & Company is an ISO 9001:2008 certified company engaged in manufacturing and exporting finest quality of Ball Valves to the market under the brand name KAVAATA VALVES. Our offered products consists of Three Way Ball Valves Flanged End Ball Valve Forged Steel Ball Valve Screwed End Ball Valve High Pressure Ball Valve Metal Seated Ball Valves Fire Safe Ball Valve and Cutting Tools. We also offer Special Purpose Ball Valves such as Ball Valve With Male Adapter Flange End Ball Valve With Limit Switch Peep Hole Ball Valve for Blast Furnace Cavity Filler Ball Valves Electropolished Ball Valves and Low Pressure Cut-Off Ball Valve.

2. The Details of the visit

The Department of Mechanical Engineering, HSIT college of engineering organized a one day. Industrial Visit to “Rajeev and Company”, Belgaum, on 4th June 2022 for Final year students. The visit was organized with the prior permission and guidance of Dr.M.M.Shivashimpi. A total of 41 students along with 3 faculty members have joined the visit.

- We Reached Rajeev and Company by 3:45 pm on 4th June 2022
- At 4.00 p.m. We are welcomed by the Mr. Rajeev sir, from Rajeev and Company. He gave instructions before visiting the company. He also had given oral explanation about the ACE Designers solution company overview. Which makes the students to know about the company. And also he explained what kinds of materials are used by them, and what are the process will they will do during manufacturing the valves.
- At 4.15 p.m. We visited the Rajeev and Company. Where we got information about the following technology:
 - Machine validation & testing for CNC Turning machines product range.+
 - CNC technology.
 - Products Manufactured in the company.
 - Showed all the machines which are used to manufacture the valves.

- At 4.45 p.m. We visited the shop floor with the engineer Mr. Rajeev sir. At each layout we got about the explanation of the each part which is to be installed in the lathe.
- After words they explained about their some projects.
- At 5.00 p.m they showed some ordered valves and how the actual process will be there after getting order from different countries like Abu Dhabi, Qatar, England, USA, Turkey etc
- Finally at the end of the session at 6.00 p.m.
- Our faculty Dr. M. M.Shivashimpi on behalf of HSIT college of Engineering, has given a vote of thanks for the Rajeev and Company, for giving a great opportunity to visit the plant.

3. Valves Manufactured in Rajeev and Company

4. Machines in Rajeev and Company

Figure 4.1 CNC Machine used to machining the valve components

5. Conclusions

It manages direction or controls the flow of a fluid or gas by opening and closing of various passageways. Valves play a vital role in most of the industries involving pipelines or other applications. Some of the common industries having valves are oil, gas, petrochemicals, marine industry, and many more. Hence students get exposure to various types of valves which help them to develop technical skills about working principles and application of valves.

6. Industry Visit Photo Gallery

Mr. Rajeev Rao, Entrepreneur, Rajeev & Rao Company, Belagavi is delivering about working of valves during industry visit held on 4th June 2022.

Mr. Rajeev Rao, Entrepreneur, Rajeev & Rao Company, Belagavi is delivering about working of valves during industry visit held on 4th June 2022

Mr. Rajeev Rao, Entrepreneur, Rajeev & Rao Company, Belagavi is interacting our student during industry visit held on 4th June 2022

Staff and students attended an industry visit at Rajeev & Rao Company, Belagavi held on 4th June 2022.

Impact Analysis and PO & PSO Attainment

| | | | |
|---|--|-------------------------------------|--|
| Activity Name: | Industry Visit at Rajeev & Rao Company, Belagavi | No. of Respondents (N): | 38 |
| Grand Total Points are given by all respondents (T): | 1893 | Impact Coefficient (IC=0-1): | Here, $IC = T / (N * 50) = 1893 / (38 * 50) = 0.996$ |

| Mapped PO/s | Weightage Assigned (1/2/3) | PO Attained/Activity Contribution to the respective PO (IC*Weightage Assigned) | Mapped PSO/s | Weightage Assigned (1/2/3) | PO Attained/Activity Contribution to the respective PSO (IC*Weightage Assigned) |
|-------------|----------------------------|--|--------------|----------------------------|---|
| PO1 | 3 | 2.988 | PSO1 | 3 | 2.988 |
| PO2 | 3 | 2.988 | PSO2 | 3 | 2.988 |
| PO3 | 3 | 2.988 | PSO3 | 3 | 2.988 |
| PO4 | 3 | 2.988 | | | |
| PO5 | 3 | 2.988 | | | |
| PO6 | 3 | 2.988 | | | |
| PO7 | 3 | 2.988 | | | |
| PO8 | 3 | 2.988 | | | |
| PO9 | 3 | 2.988 | | | |
| PO10 | 3 | 2.988 | | | |
| PO11 | 3 | 2.988 | | | |
| PO12 | 3 | 2.988 | | | |

Impact Analysis and PO & PSO Attainment

Justification:

1. Justification for Mapping of POs & PSOs

| Mapped POs/ PSOs | Weightage | Justification |
|------------------|-----------|---|
| PO1 | 3 | This activity substantially addresses valves that regulate the flow of fluids, fluidized solids, slurries, or liquid, by opening, closing, or partially obstructing various passageways. |
| PO2 | 3 | This activity substantially enlightens analyses performance for both ball valve and gate valve is necessitated with input parameters that outfit the application such as pressure, density, viscosity, and temperature. |
| PO3 | 3 | This activity substantially enlightens me. valve production companies across the world have developed high-performance globe valve designs to overcome the problems of the conventional globe. This involves reduced flow capacity, noise, pressure drops, cavitation issues, and difficult manual operation to name a few. |

Activities

Impact Analysis on Feedback

AY:2021-22

| | | |
|------|---|--|
| PO4 | 3 | This activity substantially about intelligent control systems with an integrated embedded processor and networking capability for valve trees is becoming imperative. This is of the most powerful valve design trends. |
| PO5 | 3 | This activity substantially addresses Computational Fluid Dynamic analysis is carried out to establish a robust affiliation between the design variables of the material design domain and product design domain. 3D simulation software can now be used to analyze and test various solutions without the need to build and test multiple designs and prototypes. |
| PO6 | 3 | This activity addresses briefly Valves play a vital role in most the industries involving pipelines or other applications. Some of the common industries having valves are oil, gas, petrochemicals, the marine industry, and many more. |
| PO7 | 3 | This activity addresses briefly Ensure continuous improvement in processes that have an impact on environmental operations and performances, including those not subject to regulation and recycles all waste materials of valves. |
| PO8 | 3 | This activity addresses the Code defines the set of principles and ethical values which the Company intends to be inspired and aims to define the perimeter of the ethical and social responsibilities of all those who work on the valve on behalf with the express intent of preventing irresponsible and/or unlawful conducts. |
| PO9 | 3 | This activity address provides full inline, onsite, and shop valve repair services and maintenance programs for virtually all valve types, brands, sizes, materials, pressures, and operating conditions, including actuators and operators. |
| PO10 | 3 | This activity enlightens understanding of pressure management as it pertains to system pressure controls, tank turnover, flushing, water quality, remote pressure monitoring, and leak detection are of great importance to utility managers. |
| PO11 | 3 | This activity provides knowledge about project management and finance, overall responsibilities of financial issues, and covering new enquiry of valves. |
| PO12 | 3 | This activity enlightens Valves play a vital role in most industries involving pipelines or other applications. Some of the common industries having valves are oil, gas, petrochemicals, the marine industry, and many more. |
| PSO1 | 3 | This activity provides exposure to industries such as chemical, power, metalworking, and oil & gas all having an increasing demand for innovative valves that meet the sectors' requirements. To fulfill these demands, the valve production sector needs to substantially lower fabrication costs and the development |

Activities

Impact Analysis on Feedback

AY:2021-22

| | | |
|------|---|--|
| | | time, while keeping up with the industry's innovations. |
| PSO2 | 3 | This activity addresses knowledge of Designing control valves including all categories and rotating shaft control valves predominantly linked to power generation, water and wastewater, and chemical processing industries. |
| PSO3 | 3 | This activity enlightens about the increased reliability and responsiveness of these systems is preferred for industry-standard electro-hydraulic control systems as they allow remote monitoring through a central control station. |

- The activity mapped with PO1, PO2, PO3, PO4, PO5, PO6, PO7, PO8, PO9, PO10, and PO11 & PO12 was found satisfactory with an attainment level of 2.988 each against the Mapped values during the impact analysis.
- The activity mapped with PSO1, PSO2 & PSO3 was found satisfactory with an attainment level of 2.988 each against the Mapped value during the impact analysis.

Conclusion: The activity is organized to fulfill the program outcomes engineering knowledge, problem analysis, design/development solution, conduct investigations of complex problems, modern tool usage, engineer and society, environment and sustainability, ethics, individual & teamwork, communication, project management & finance and lifelong learning and PSO1, PSO2 & PSO3 has mitigated the gap identified satisfactorily to some extent.

Future Suggestions: Valves play a vital role in most industries involving pipelines or other applications. Hence students get exposure to various types of valves which help them to develop technical skills about working principles and application of valves.
