Workshop on

NBA – SAR

15 – 17 September, 2017

(An ISO 9001:2008 Certified, AICTE & CEA Recognized Institution)

Centre for Promotion of Professional Excellence

INTRODUCTION

With the advent of globalization, the Technical and Higher education system in India has been subjected to major changes. However, Quality of Education and training being imparted in Technical Education Institutions varies from excellent to poor, with some institutions comparing favorably with the best in the world and others not able to achieve even minimum standard of Quality. For improving quality and facilitate mobility of our students across the globe.

Government of India in 1986 came out with National Policy on Education. As a follow up of this policy statement, Government of India established two separate bodies namely National Board of Accreditation(NBA) through All India Council for Technical Education(AICTE) and National Assessment & Accreditation Council (NAAC) through University Grants Commission (UGC) in the year 1994. Both the bodies provide accreditation to those institutions practicing prescribed Quality Assurance System and achieve specified level of Quality as per the criteria defined. While NBA focuses largely on the parameters that communicate the strength & weakness of a program, NAAC concentrates on Institutional Accreditation. NBA accreditation is also made mandatory for the engineering colleges.

India has been accorded signatory status of Washington Accord in the meeting of International Engineering Alliance held at Wellington, New Zealand, The other signatories are Australia, Canada, Chinese Taipei, Hong Kong China, Ireland, Japan, Korea, Malaysia, New Zealand, Russia, Singapore, South Africa, Turkey, the United Kingdom and the United States. India has now joined the elite 17-member group of permanent signatories. Washington Accord is an international accreditation agreement for Engineering Degrees among prominent nations of the world. The agreement is aimed at promoting mobility and quality assurance of engineers across international boundaries. The Accord requires member nations to ensure that the highest quality assurance standards are implemented in their technical and engineering programs.

Government of India also conceived **Technical Education Quality Improvement Program (TEQIP)** to improve Quality of Technical Education suiting to current National & Global requirements.

The present scheme of NBA accreditation is outcome based unlike in the past. This training program is conceived to facilitate understanding of what constitutes program outcomes and Program Educational Objectives and how to formulate and achieve these.

OBJECTIVES

- a) To understand the different initiatives taken by Government of India for Quality Assurance in Technical and Higher Education.
- b) To provide knowledge and skill on the latest outcome based systems of NBA and conduct Self-Assessment.
- c) To interpret requirements of NBA Accreditation Criteria and define PEOs/ POs and Evaluation Guidelines.

COVERAGE

- OBE- An overview
- Quality Enhancement through Enablers & Outcome based Approach
- Criteria for NBA Accreditation / Evaluation Guidelines / Preparation of Self-Assessment Report (SAR) / Program Educational Objectives & Program Outcomes (PEO's & PO's)
- Case Study / Panel Discussion

METHODOLOGY

The program will be conducted in an interactive environment providing scope for discussions. Emphasis will be on a highly participative style of learning through Lectures, Group discussions & Mock Accreditation activities.

TARGET PARTICIPANTS

The Three day program is designed for Directors, Principals, Heads of Institution, Educational Administrators, Registrars and Senior Faculty members from Technical & Higher Education Institutions / Universities (Government & Deemed Universities) who are the key personnel to understand and implement Quality Initiatives in their Institutions. The Technical / Higher Educational Institutions who are planning to go for NBA Accreditation will benefit enormously by attending this workshop.

PROGRAMME VENUE, DATES & TIMINGS

Venue: HIRASUGAR INSTITUTE OF TECHNOLOGY, Nidasoshi, Taq: Hukkeri,
Dist: Belgaum, Karnataka - 591 236

Dates: 15 – 17 September, 2017 (3 days)

Timings: On the first day, Registration will commence at 0900 hrs. On all other days the program timings will be from 0945 - 1715hrs with breaks in between for tea and lunch.

About the Institute:

It was with the vision & foresight of His Holiness Shri Pancham Nijalingeshwar Mahaswamiji, the Ninth pontiff of Shri. Siddha Sousthan Math, Nidasoshi, that Shri. Jagadguru Pancham Nijalingeshwar (SJPN) Trust was founded in 1984 with the sole purpose of imparting quality education to the needy masses. Under this trust, Hirasugar Institute of Technology, Nidasoshi was established in the year 1996. The management of HIT is a benevolent body of individuals drawn from various walks of life. Eminent personalities from both industry & academic field are managing the institution. The college is spread over a sprawling 48.26 acres of greenery & natural surroundings. The Institute offers 4 years BE Degree courses in Mechanical Engineering., Electrical & Electronics Engineering, Electronics & Communication Engineering & Computer Science Engineering . The Institute also runs a Post Graduate Course in Thermal Engineering and the Mechanical Engineering Department has been recognized as a Research Centre by V.T.U. The college is affiliated to Visvesvaraya Technological University (VTU), Belagavi & approved by All India Council for Technical Education (AICTE), New Delhi & recognized by the Government of Karnataka.

About the Department:

The department of Mechanical Engineering was established in the year 1996 with an intake of 60 students & the present intake is 120. The department has qualified & experienced teaching faculty with state of the art infrastructure and modern teaching aids catering to the needs of VTU curriculum. At present, eight faculty are pursuing Ph.D under V.T.U.

About the Course:

- The properties of interest in materials like mechanical, electrical, magnetic, optical can impact industries involved in electronics, communication, medicine, manufacturing, energy and the environment. The emerging field of Nanotechnology and the advanced processing methods are providing a new palette of molecular, organic, biological and inorganic building blocks to design and assemble Nano engineered materials with unique functionalities.

The course is designed to provide more details about the recent progress in materials -properties A few of the advanced materials like Graphene, Carbon Nano tubes, Nano Composite Structures, Thin Films and Smart Composite Structures have been covered by the experts in the field to give the keen insight into the subject and create interest among the faculty, practicing engineers to take up the research in these fields. There are Laboratory sessions and also a visit to an industry as a part of the faculty development program.

Course Content:

- Nanotechnology and its applications
- Synthesis and Processing of Nano structural materials
- Nano Composites
- Thin Films
- Graphene and Carbon Nano Tubes
- Memory Metals and their applications
- Smart Composite Structures

Resource Persons:

Resource persons are from the reputed Institutions like N.I.T., Surathkal., B.V.B.Hubli., N.I.E, Mysore and the reputed Research Laboratories like N.A.L. Bangalore., etc.

Who Can Apply: .

Faculty members of the University/ Engineering College recognized by A.I.C.T.E., working in the department of Mechanical Engineering/Civil Engineering/Material Science & Metallurgy/Chemical Engineering/ Physics/Chemistry are eligible to attend the course. The personnel from the related industries can also attend. The interested participants are requested to send their filled registration forms at the earliest. Selected candidates are informed by e-mail. .Selection will be on first come first served basis with total maximum number of participants limited to 50 numbers only. .

Registration:

There is no registration fee for the course. However, the candidates should send a Crossed Demand Draft of Rs 500/- drawn in favour of "The Principal, HIT Nidasoshi" payable at Sankeshwar. Demand draft will be refunded at the end of the course.

Accommodation:

Accommodation will be arranged based on prior request on first come first served basis.

Important Dates:

Form Submission on or before: **28.12.2017**

Selection & Notification by mail on: **01.01.2018**

ABOUT HIRASUGAR INSTITUTE OF TECHNOLOGY

The Institute was established in the year 1996 with the singular objective of offering technical education to the rural community of North Karnataka. It made a beginning with 4 streams namely Computer Science & Engineering, Electronics & Communication Engineering, Electrical & Electronics Engineering and Mechanical Engineering. In the beginning itself, it received an overwhelming response from students planning to pursue technical education. The Institute has been provided with a state of art laboratories, Library and Transport facilities to the students. It has highly qualified faculty and supporting staff. The Institute is affiliated to the Vignanswamy Technological University (VTU) Belagavi and recognized by All India Council for Technical Education (AICTE) New Delhi. The college is listed at SI.No ED40 in the KEACEET Bulletin and SI.No E111 in COMED-K. The Institute is spread over 46.26 acres of land. The campus has all the basic amenities for the overall personality development of the student with the spacious infrastructure. During academic year 2014-15 PG in Thermal Engineering and Research Center at Mechanical Engineering Department (Recognized by VTU) were added. It has grooming technical competent engineers to serve the industry and society in line with the humane approach. Training and Placement cell actively developing the students to the expectations of the employer. English professional communication skills are imparted to the students to develop the language proficiency. The campus host academic blocks, staff quarters, gym facility, hospital, bank, canteen, clinic and transportation facility which makes the HSIT experience truly enriching.

The Institute offers 4 years full time Bachelor of Engineering (B.E.) degree courses in 54 disciplines and 2 years full time Post Graduation (M.Tech) course in 01 discipline.

UG Programs:

- Computer Science & Engineering
 - Electronics Communication & Engineering
 - Electrical & Electronics Engineering
 - Mechanical Engineering
- PG Program:**
- M.Tech in Thermal Engineering

The Institute's main objective is to provide effective technical education and make the students to become better citizens and accomplished technocrats of our nation. It also helps students to achieve success in their life by helping the students to get recruited into various national and multinational organizations.

Our Vision & Mission

Vision

"To be a preferred Institution in Engineering Education by achieving excellence in teaching and research and to remain as a source of pride for its commitment to holistic development of individual and society."

Mission

"To continuously strive for the overall development of students, educating them in a spirit of the art of fabrication, by retaining the best practices, people and inspire them to imbibe real time problem solving skills, leadership qualities, human values and societal commitments, so that they emerge as competent professionals."

ABOUT LABTECH INNOVATIONS™

Labtech Innovations™, Chennai is one of the India's foremost and a fast growing professional association for research development and promotion in the field of Engineering, Technology & Science operating under Density Innovations Pvt. Ltd. Labtech Innovations™ is a paramount body which is on the track of bringing a rapid technical revolution and a sustainable development in the field of Engineering, Technology & Science by facilitating knowledge flow from Institution to Institution & Industry to Institution & vice versa.

The association is supported by its International Advisory Board (IAB) which is not limited to the subcontinent rather we have gurus from the middle east and European to boost our organization. LABTECH is collaborating with leading technical institutes including Universities and research centers to promote the exchange of technical knowledge among the student's community. Today LABTECH INNOVATIONS is one of the foremost publishers of research papers in high-quality peer-reviewed, indexed journals proceeding and research magazine.

ABOUT THE CONFERENCE

We are glad to announce the International Conference on Recent Innovations in Science, Engineering & Technology (ICRISET), Madras during 18th and 19th May 2018 in association with Labtech Innovations. All the submitted research articles will be peer-reviewed by the program and technical committees of the conference. ICRISET-18 will provide an excellent international forum for sharing knowledge and results in Emerging Technological Innovations in Science, Engineering, Technology and Management. The aim of the Conference is to provide a platform to the researchers and practitioners from both academia as well as industry to meet & share the cutting-edge developments in the field of engineering technology.

SCOPE OF THE CONFERENCE

- All the accepted papers will be published in the conference proceedings
- All the accepted paper will be published in relevant Scopus Indexed International Journals as well as in Anna University Annexure I Journals
- Awards will be given for the best research paper as well as best paper presentation
- Delegates with research activities and innovative ideas which may be beneficiary for humanities will be funded through Labtech Innovations™ Research Funding Scheme

CALL FOR PAPERS

The full text paper should be in MS Word one Column format (font - Times New Roman, Size -12, Line Spacing 1.5) Original contributions are solicited in topics covered under broad areas such as (but not limited to)

Electronics and Communication

- Analog and digital signal processing
- Image processing & Speech processing
- Cognitive radio networks
- Wireless-mobile communication and technologies
- VLSI, Embedded
- Wireless systems
- 4G-5G Cellular communications

Electronics and Instrumentation

- Industrial Control And Automation
- Smart Sensors
- Machine Vision System
- Industrial Insight of Things
- Process Modelling and Simulation

Electrical and Electronics Engineering

- Renewable and Sustainable Energy Management
- Smart Grid
- Digital Control of Electric Drives
- Recent Trends in Automation
- Modern Converters for Industrial Applications

Computer Science Engineering

- Big data analytics, Cloud Computing, Data Mining
- Parallel, Distributed Computing and Ubiquitous Computing
- ICT and IoT, Advanced algorithms and complexity
- Mobile, Wireless and Sensor Networks
- Artificial Intelligence, Neural Networks and machine learning
- Network Security, Software Engineering, Bio-informatics
- Human computer interaction
- Programming languages and environment
- Computer graphics and visualization

Civil Engineering

- Use of Industrial waste
- Structural analysis and design
- Social and environmental research
- Life-Cycle analysis, Micro climate

Mechanical Engineering

- Advanced battery and fuel cell development for electric vehicles
- Structures, Materials, Design
- Production and Tribology
- Biomass fuelled power plant
- Design Engineering
- Manufacturing Engineering
- Thermo Fluid

Aeronautical Engineering

- Aerodynamics, Aircraft Materials and Structures
- Aerospace Propulsion, Avionics
- CFD, Aircraft Maintenance
- UAV / MAV

General Science

- Photonics, Condensed matter physics
- Nano technology, Astrology and Astrophysics
- Green chemistry and engineering for sustainable future
- Water: From pollution to purification
- Nano sciences, Operations research
- Computational Fluid Dynamics
- Algebra, Number Theory, Graph Theory
- Fuzzy Sets & Logic Numerical Analysis

To,
The Proprietor,
PATCO Transformer Industries,
Nipani.

Dear Sir/Madam,

Subject: Permission for Engineering Students to visit the PATCO Transformer Industries.

With reference to the above we, at the very outset, introduce ourselves.

Ours is a Technical Institution offering four years B E Degree Courses in the disciplines of CS&E, E&EE, E&CE, and ME, and two years M. Tech. Degree in Thermal Engineering in MED, and M. Sc. (Engg) by Research and Ph. D. Degree in MED. The annual intake is 318 and total student strength is 1220. We are successfully moving ahead in 22nd year of existence in providing quality and affordable technical education to the needy intellectuals of this region.

I would like to bring your kind notice that 6th semester students of **ELECTICAL & ELECTRONICS ENGINEERING** Department are planning to visit **PATCO Transformer Industries** in the First week of April 2018 (probably on 3rd). The purpose of visit is to give practical exposure about Transformers.

Therefore, I request you to permit our students to visit the industry. Further, I request you to make necessary arrangement to spare the services of your technical staff to guide our students. The list of students & faculties visiting the plant are enclosed herewith.

Institution-Industry Interaction Coordinator:
Prof. Pramod Murari, AP, Dept. of EEE, Cell: 9739733021, Email: pramodmurari.eee@hsit.ac.in

With my best personal regards and thanks,

Principal

To,
The Deputy General Manager,
220/400kV Power Grid,
Narendra, Dharwad.

Dear Sir/Madam,

Subject: Permission for Engineering Students to visit the Power Grid.

With reference to the above we, at the very outset, introduce ourselves.

Ours is a Technical Institution offering four years B E Degree Courses in the disciplines of CS&E, E&EE, E&CE, and ME, and two years M. Tech. Degree in Thermal Engineering in MED, and M. Sc. (Engg) by Research and Ph. D. Degree in MED. The annual intake is 318 and total student strength is 1220. We are successfully moving ahead in 22nd year of existence in providing quality and affordable technical education to the needy intellectuals of this region.

I would like to bring your kind notice that 4th semester students of **ELECTICAL & ELECTRONICS ENGINEERING** Department are planning to visit the **Power Grid, Narendra Dharwad** in the Last week of March 2018 (probably on 28th). The purpose of visit is to give practical exposure about power grid.

Therefore, I request you to permit our students to visit the site. Further, I request you to make necessary arrangement to spare the services of your technical staff to guide our students. The list of students & faculties visiting the plant are enclosed herewith.
