	<b>S J P N Trust's</b> <b>Hirasugar Institute of Technology, Nidasoshi</b> <i>Inculcating Values, Promoting Prosperity</i> Approved by AICTE, Recognized by Govt. of Karnataka and Affiliated to VTU Belagavi. <b>Accredited at 'A' Grade by NAAC</b> <b>Programmes Accredited by NBA: CSE, ECE.</b>	<b>Institution</b>
		<b>NAAC</b>
		<b>Criteria 7</b>
		<b>AY:2022-23</b>

**Describe the facilities in the institution for the management of the following types of degradable and non-degradable waste (within 500 words)**

- **Solid waste management**
- **Liquid waste management**
- **Biomedical waste management**
- **E-waste management**
- **Waste recycling system**
- **Hazardous chemical and radioactive waste management**

**Solid waste Management:** The solid waste generated, is separated into Wet waste and Dry waste. The dry waste is collected in dustbins at different locations and is dumped in resource recovery point. Dry waste segregated like paper, glass, plastic, plastic bottles, cardboard, Styrofoam, rubber, metal, food packaging material, leather, etc. The materials like paper and cardboard can put into a baling machine. A baling machine is equipment used to compress the material into compact bales. This makes it easy to handle, store, and transport. Segregated material sent for recycling e.g. soft plastic, hard plastic, polythene bags. Multilayer Plastic (MLP) is not recycled but it is sent to cement industry as fuel.

The Wet food/kitchen waste collected in dustbins is dumped mainly into Hermi compost plant; some part into biogas plant; also, some of the bio waste is send to Goshala. Paper and wooden materialistic is systematically managed and they are given for recycling.

**Liquid waste Management:** Liquid waste generated in the institute is taken out through the pipeline, treated in septic tanks, and disposed into soak pits. The institute has implemented the Bio digester technology at some places.

**Biomedical Waste Management:** There is no biomedical waste.

**E-waste Management:** The e-waste generated will be given to the suppliers, while buying a new machine with buyback.

**Waste recycling system:** The metal and paper waste are sold to the venders with applicable cost.

**Hazardous chemical and radioactive waste management:** Old Batteries are exchanged with new one while buying with appropriate depreciation.

## Solid waste Management:

### Dry waste:

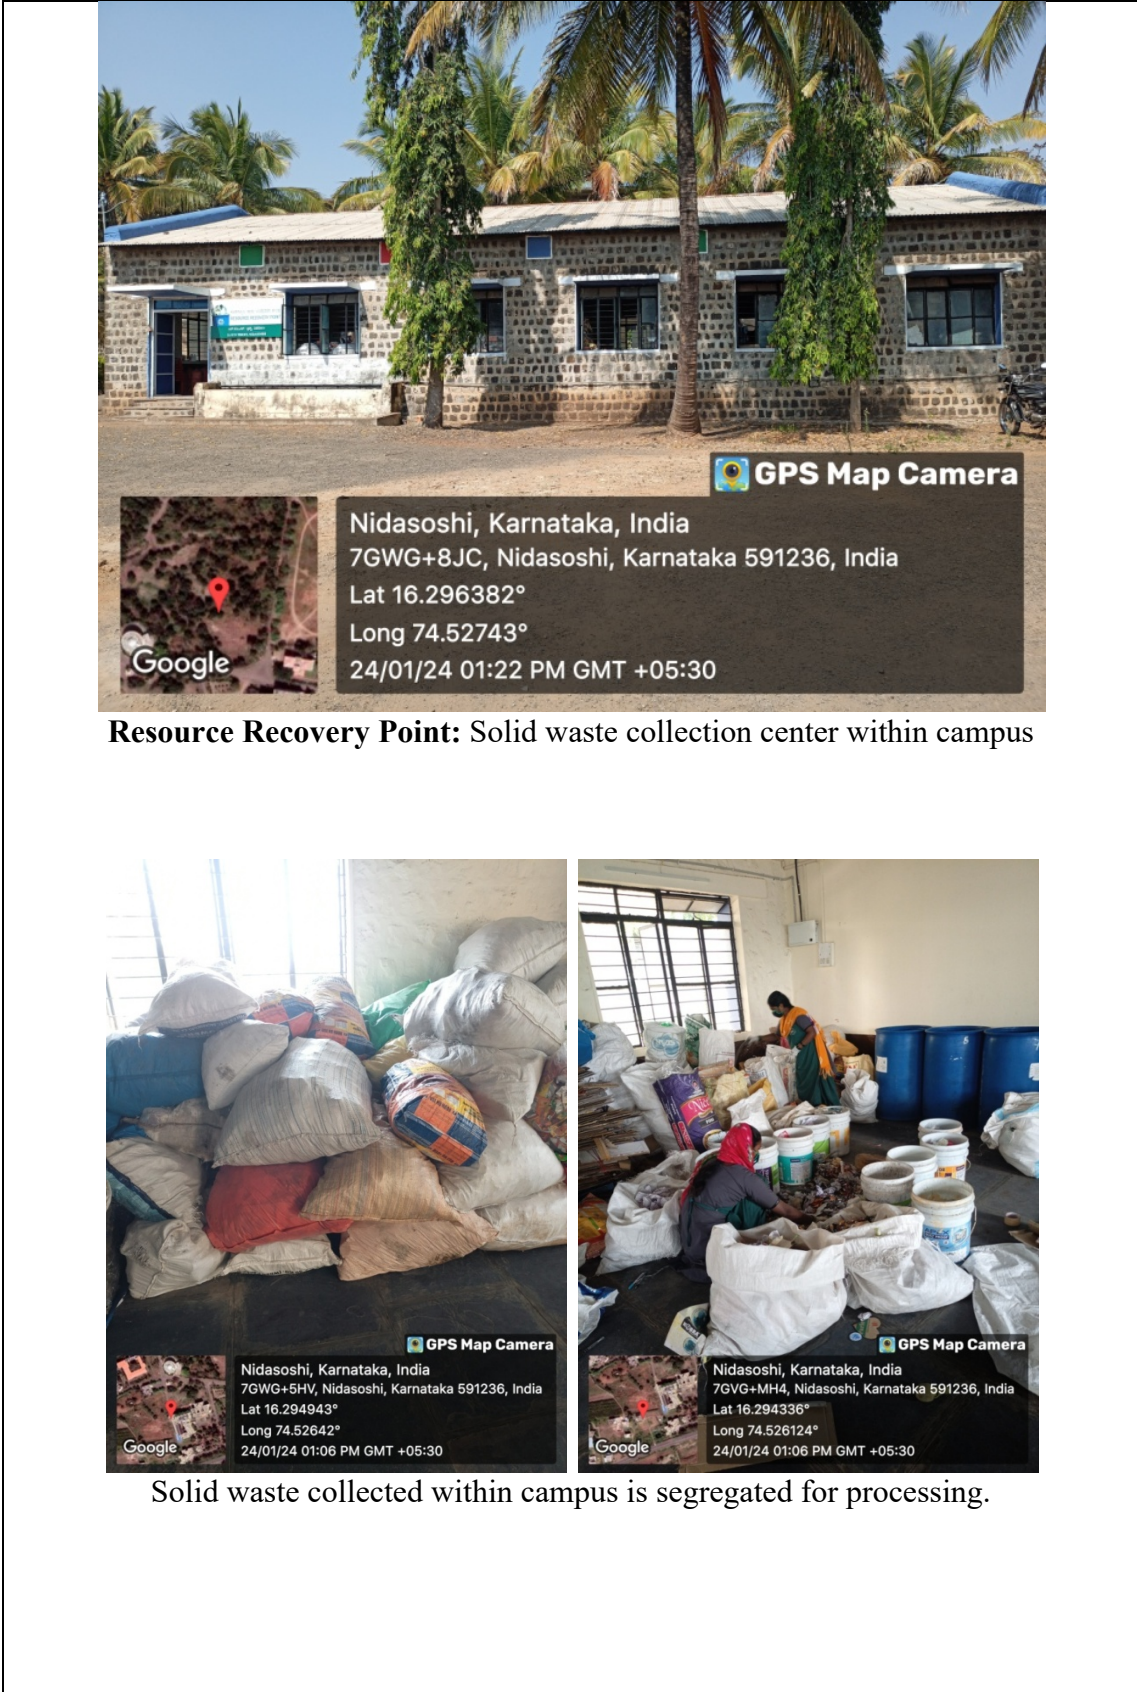

Solid waste collected from various places within the campus.
