 Head of department
Mechanical Engg.
HIT, Nidasoshi

 Principal
PRINCIPAL
Hirasugar Institute of Technology
Nidasoshi-591 236

Legend

- A1 => Helping local to achieve good result and enhance their enrollment in Higher / technical /Vocational Education
- A2 => Preparing an actionable business proposal for enhancing the village Income
- A3 => Developing Sustainable water Management System
- A4 => Tourism Promotion Innovative Approaches
- A5 => Promotion of Appropriate Technologies
- A6 => Reduction in Energy Consumption
- A7 => To Skill rural population
- A8 => Facilitating 100% Digitized money transactions
- A9 => Setting of the information imparting club for women leading to contribution in social and economic issues
- A10 => Developing and managing efficient garbage disposable system
- A11 => To assist the marketing of rural produce
- A12 => Food Preservation / packaging
- A13 => Automation of local activities
- A14 => Spreading public awareness under rural outreach programmes
- A15 => Contribution to any national level initiative of Government of India.

Visvesvaraya Technological University

AICTE Activity Report

College Name: S.J.P.N. TRUST HIRASUGAR INSTITUTE OF TECHNOLOGY, NIDASOSHI Branch Code : CS

SL.NO	USN	Student Name	No Of Activity Conducted	Activity Details	Minimum Activity Points	Total Obtained Points
1	2HN18CS005	ASHWINI MALED	4	<p>A10 => A critical component in any waste management program is public awareness and participation, in addition to appropriate legislation, strong technical support and adequate funding. Waste is the result of human activities and everyone needs to have a proper understanding of waste management issues, without which the success of even the best conceived waste management plan becomes questionable.</p> <p>A14 => Coronavirus disease (COVID-19), is an infectious disease caused by a newly discovered coronavirus (SARS-CoV-2), which has spread rapidly throughout the world. In March 2020, the World Health Organization (WHO) declared the COVID-19 outbreak a pandemic.</p> <p>A3 => The paper outlines rain water harvesting is being frequently used these days, however, the concept of water harvesting is not new for India. Water harvesting techniques had been evolved and developed centuries ago.</p> <p>A8 => Activity conducted on the topic "Creating awareness and facilitating digital money transactions" . It works on the basis of online banking is one of the most important financial activity which will be carried out by any person who holds the bank account. There are various activity that can be carried out once you login to bank account.</p>	50	80

2	2HN18CS022	ROHIT PRAKASH GADIWADDAR	4	<p>A10 => A critical component in any waste management program is public awareness and participation, in addition to appropriate legislation, strong technical support and adequate funding.</p> <p>A15 => To accelerate the efforts to achieve universal sanitation coverage and to put focus on sanitation, the Prime Minister of India launched the Swachh Bharat Mission on 2nd October, 2014</p> <p>A2 => Background: n-employment, especially among rural people is a biggest challenge for India. As a result, rural people are moving towards urban areas to obtain better employment opportunities and amenities of life.</p> <p>A8 => Activity conducted on the topic "Creating awareness and facilitating digital money transactions" . It works on the basis of online banking is one of the most important financial activity which will be carried out by any person who holds the bank account.</p>	50	80

 PRINCIPAL
 Jirasugar Institute of Technology
 NIDASOSHI-591230

- A1 => Helping local to achieve good result and enhance their enrollment in Higher / technical /Vocational Education
- A2 => Preparing an actionable business proposal for enhancing the village Income
- A3 => Developing Sustainable water Management System
- A4 => Tourism Promotion Innovative Approaches
- A5 => Promotion of Appropriate Technologies
- A6 => Reduction in Energy Consumption
- A7 => To Skill rural population
- A8 => Facilitating 100% Digitized money transactions
- A9 => Setting of the information imparting club for women leading to contribution in social and economic issues
- A10 => Developing and managing efficient garbage disposable system
- A11 => To assist the marketing of rural produce

Visvesvaraya Technological University

AICTE Activity Report

College Name: S.J.P.N. TRUST HIRASUGAR INSTITUTE OF TECHNOLOGY, NIDASOSHI Branch Code : EE

SL.NO	USN	Student Name	No Of Activity Conducted	Activity Details	Minimum Activity Points	Total Obtained Points
1	2HN19EE001	AMISHA A AKKOLE	3	<p>A10 => Our lives consist of changes and the occurrence of some inevitable situations. Waste production is one such circumstance that cannot be avoided, yet is often considered as the most hazardous effect on the living world and the atmosphere. Waste is something that creates no value and only depreciates our well-being and the basic reason behind the production of waste is the growing civilization.</p> <p>A7 => Employment, especially among rural people is a biggest challenge for India. As a result, rural people are moving towards urban areas to obtain better employment opportunities and amenities of life. Agriculture is the principal economic activity but due to post harvest losses like food weight loss, loss of food quality, loss of food values, loss of economic values, make food less acceptable by consumers that results poor earning or less profit to farmers, a solid factor of rural poverty</p> <p>A8 => The Information Technology (IT) has revolutionized the various aspects of our lives; particularly it has provided an easy way to go for digital payments. During the demonetization period, the Government of India forced the people directly or indirectly to do all commercial transactions via Digital mode.</p>	50	60

2	2HN19EE002	ASHWINI BARAGI	<p>A10 => Our lives consist of changes and the occurrence of some inevitable situations. Waste production is one such circumstance that cannot be avoided, yet is often considered as the most hazardous effect on the living world and the atmosphere. Waste is something that creates no value and only depreciates our well-being and the basic reason behind the production of waste is the growing civilization.</p> <p>A7 => Employment, especially among rural people is a biggest challenge for India. As a result, rural people are moving towards urban areas to obtain better employment opportunities and amenities of life. Agriculture is the principal economic activity but due to post harvest losses like food weight loss, loss of food quality, loss of food values, loss of economic values, make food less acceptable by consumers that results poor earning or less profit to farmers, a solid factor of rural poverty.</p> <p>A8 => The Information Technology (IT) has revolutionized the various aspects of our lives; particularly it has provided an easy way to go for digital payments. During the Demonetization period, the Government of India forced the people directly or indirectly to do all commercial transactions via Digital mode. Digital Payments was initiated to bring transparency in transactions and eliminating black money. It was actually a move towards a cashless economy</p>	50	60
---	------------	----------------	--	----	----

3	2HN19EE003	CHIDANAND HARUGERI	3	<p>A1 => Orientation programs are generally held to exchange ideas and have a better interaction. Prior to the beginning of their college life, it is necessary for the students to have an overview of the complete realm of university life, from academics to social activities.</p> <p>A7 => Unemployment, especially among rural people is a biggest challenge for India. As a result, rural people are moving towards urban areas to obtain better employment opportunities and amenities of life. Agriculture is the principal economic activity but due to post harvest losses like food weight loss, loss of food quality, loss of food values, loss of economic values, make food less acceptable by consumers that results poor earning or less profit to farmers, a solid factor of rural poverty.</p> <p>A8 => The Information Technology (IT) has revolutionized the various aspects of our lives; particularly it has provided an easy way to go for digital payments. During the Demonetization period, the Government of India forced the people directly or indirectly to do all commercial transactions via Digital mode.</p>	50	60
---	------------	-----------------------	---	--	----	----

4	2HN19EE004	DASHARATH	<p>3</p> <p>A10 => A critical component in any waste management program is public awareness and participation, in addition to appropriate legislation, strong technical support and adequate funding. waste produced by hospitals is the major issue of concern as it could be hazardous if spread from one patient to another. Segregation of the waste is more important part of the waste management as different waste need to be treated in different ways.</p> <p>A7 => Unemployment, especially among rural people is a biggest challenge for India. As a result, rural people are moving towards urban areas to obtain better employment opportunities and amenities of life. Agriculture is the principal economic activity but due to post harvest losses like food weight loss, loss of food quality, loss of food values, loss of economic values, make food less acceptable by consumers that results poor earning or less profit to farmers, a solid factor of rural poverty.</p> <p>A8 => The Information Technology (IT) has revolutionized the various aspects of our lives; particularly it has provided an easy way to go for digital payments. During the Demonetization period, the Government of India forced the people directly or indirectly to do all commercial transactions via Digital mode.</p>	50	60
---	------------	-----------	--	----	----

5	2HN19EE005	GOPI MADAN MANE	3	<p>A1 => Orientation programs are generally held to exchange ideas and have a better interaction. Prior to the beginning of their college life, it is necessary for the students to have an overview of the complete realm of university life, from academics to social activities. Students should have an exposure to the choices offered to them in their colleges. Priorly, they must also know that in order to get into prominent institutions, they must have a good score in their high school boards.</p> <p>A7 => Unemployment, especially among rural people is a biggest challenge for India. As a result rural people are moving towards urban areas to obtain better employment opportunities and amenities of life. Agriculture is the principal economic activity but due to post harvest losses like food weight loss, loss of food quality, loss of food values, loss of economic values, make food less acceptable by consumers that results poor earning or less profit to farmers, a solid factor of rural poverty.</p> <p>A8 => The Information Technology (IT) has revolutionized the various aspects of our lives; particularly it has provided an easy way to go for digital payments. During the Demonetization period, the Government of India forced the people directly or indirectly to do all commercial transactions via Digital mode. Digital Payments was initiated to bring transparency in transactions and eliminating black money. It was actually a move towards cashless economy.</p>	50	60
---	------------	--------------------	---	---	----	----

6	2HN19EE006	KUNAL MANE	3	<p>A1 => Orientation programs are generally held to exchange ideas and have a better interaction. Prior to the beginning of their college life, it is necessary for the students to have an overview of the complete realm of university life, from academics to social activities</p> <p>A7 => Unemployment, especially among rural people is a biggest challenge for India. As a result, rural people are moving towards urban areas to obtain better employment opportunities and amenities of life. Agriculture is the principal economic activity but due to post harvest losses like food weight loss, loss of food quality, loss of food values, loss of economic values, make food less acceptable by consumers that results poor earning or less profit to farmers, a solid factor of rural poverty.</p> <p>A8 => The Information Technology (IT) has revolutionized the various aspects of our lives; particularly it has provided an easy way to go for digital payments. ---	------------	------------	---	---	----	----

7	2HN19EE007	MAHESH HIREKURABAR	3	<p>A14 => This Activity is related to making the village as a smart village by providing facilities such as health, water supply, sanitation, education, social development, economic development and security in an efficient manner. The concept of smart village makes the village self-sufficient in respect of their needs. We have shifted our focus to make villages 'smart' technologically and have tried to bring about changes that would have the sole of village but facilities as that of a city.</p> <p>A15 => The acceptance of any vaccine relies on the belief and perception towards it. After wait of almost 10 months, the COVID-19 vaccine is ready with the first phase in progress in India. The aim of this study is to assess the impact on the acceptance intention of COVID-19 vaccine among the general population of India after the vaccine is inoculated to health care workers in the first phase. An empirical study was conducted by analyzing the data collected by a self administered questionnaire.</p> <p>A7 => Unemployment, especially among rural people is a biggest challenge for India. As a result, rural people are moving towards urban areas to obtain better employment opportunities and amenities of life. Agriculture is the principal economic activity but due to post harvest losses like food weight loss, loss of food quality, loss of food values, loss of economic values, make food less acceptable by consumers that results poor earning or less profit to farmers, a solid factor of rural poverty.</p>	50	60
---	------------	-----------------------	---	---	----	----

8	2HN19EE008	MUSKAN A MOMIN	<p>A10 => A critical component in any waste management program is public awareness and participation, in addition to appropriate legislation, strong technical support and adequate funding. Waste is the result of human activities and everyone needs to have a proper understanding of waste management issues, without which the success of even the best conceived waste management plan becomes questionable</p> <p>A15 => The acceptance of any vaccine relies on the belief and perception towards it. Waste is something that creates no value and only depreciates our well-being and the basic reason behind the production of waste is the growing civilization.</p> <p>A7 => An-employment, especially among rural people is a biggest challenge for India. As a result, rural people are moving towards urban areas to obtain better employment opportunities and amenities of life. Agriculture is the principal economic activity but due to post harvest losses like food weight loss, loss of food quality, loss of food values, loss of economic values, make food less acceptable by consumers that results poor earning or less profit to farmers, a solid factor of rural poverty.</p> <p>A8 => The Information Technology (IT) has revolutionized the various aspects of our lives; particularly it has provided an easy way to go for digital payments. During the Demonetization period, the Government of India forced the people directly or indirectly to do all commercial transactions via Digital mode. Digital Payments was initiated to bring transparency in transactions and eliminating black money. It was actually a move towards cashless economy.</p>	50	60
----	------------	-----------------------	---	--	----	----

12	2HN19EE012	SURAJ S DRAKSHE	3	<p>A10 => Our lives consist of changes and the occurrence of some inevitable situations. Waste production is one such circumstance that cannot be avoided, yet is often considered as the most hazardous effect on the living world and the atmosphere. Waste is something that creates no value and only depreciates our well-being and the basic reason behind the production of waste is the growing civilization.</p> <p>A7 => An-employment, especially among rural people is a biggest challenge for India. As a result, rural people are moving towards urban areas to obtain better employment opportunities and amenities of life. Agriculture is the principal economic activity but due to post harvest losses like food weight loss, loss of food quality, loss of food values, loss of economic values, make food less acceptable by consumers that results poor earning or less profit to farmers, a solid factor of rural poverty.</p> <p>A8 => This Activity is related to making the village as a smart village by providing facilities such as health, water supply, sanitation, education, social development, economic development and security in an efficient manner. The concept of smart village makes the village self-sufficient in respect of their needs. We have shifted our focus to make villages 'smart' technologically and have tried to bring about changes that would have the sole of village but facilities as that of a city.</p>	50	60
----	------------	-----------------	---	--	----	----

13	2HN19EE013	TEHAMIM M REHAMANBHAI	<p>A10 => A critical component in any waste management program is public awareness and participation, in addition to appropriate legislation, strong technical support and adequate funding. Waste is the result of human activities and everyone needs to have a proper understanding of waste management issues, without which the success of even the best conceived waste management plan becomes questionable.</p> <p>A15 => The acceptance of any vaccine relies on the belief and perception towards it. After wait of almost 10 months, the COVID-19 vaccine is ready with the first phase in progress in India. The aim of this study is to assess the impact on the acceptance intention of COVID-19 vaccine among the general population of India after the vaccine is inoculated to health care workers in the first phase. An empirical study was conducted by analysing the data collected by a self-administered questionnaire.</p> <p>A8 => The Information Technology (IT) has revolutionized the various aspects of our lives; particularly it has provided an easy way to go for digital payments. During the Demonetization period, the Government of India forced the people directly or indirectly to do all commercial transactions via Digital mode. Digital Payments was initiated to bring transparency in transactions and eliminating black money.</p>	50	60
----	------------	--------------------------	---	----	----

14	2HN19EE014	VIJAYKUMAR PATIL	<p>A10 => A critical component in any waste management program is public awareness and participation, in addition to appropriate legislation, strong technical support and adequate funding. Waste is the result of human activities and everyone needs to have a proper understanding of waste management issues, without which the success of even the best conceived waste management plan becomes questionable.</p> <p>A7 => Unemployment, especially among rural people is a biggest challenge for India. As a result, rural people are moving towards urban areas to obtain better employment opportunities and amenities of life. Agriculture is the principal economic activity but due to post harvest losses like food weight loss, loss of food quality, loss of food values, loss of economic values, make food less acceptable by consumers that results poor earning or less profit to farmers, a solid factor of rural poverty.</p> <p>A8 => The Information Technology (IT) has revolutionized the various aspects of our lives; particularly it has provided an easy way to go for digital payments. Head Of department
Dr. B. V. Madiggond

Prof. & Head BE,ME,Ph.D.

Dept. of Electrical & Electronics Engg.
Report ID: NIDASOSHI-591236

(Signature)
2019
PRINCIPAL

Hirasugar Institute of Technology
NIDASOSHI-591236

Legend

- A1 => Helping local to achieve good result and enhance their enrollment in Higher / technical /Vocational Education
- A2 => Preparing an actionable business proposal for enhancing the village Income
- A3 => Developing Sustainable water Management System
- A4 => Tourism Promotion Innovative Approaches
- A5 => Promotion of Appropriate Technologies
- A6 => Reduction in Energy Consumption
- A7 => To Skill rural population
- A8 => Facilitating 100% Digitized money transactions
- A9 => Setting of the information imparting club for women leading to contribution in social and economic issues
- A10 => Developing and managing efficient garbage disposable system
- A11 => To assist the marketing of rural produce
- A12 => Food Preservation / packaging
- A13 => Automation of local activities
- A14 => Spreading public awareness under rural outreach programmes
- A15 => Contribution to any national level initiative of Government of India.

Visvesvaraya Technological University

AICTE Activity Report

College Name: S.J.P.N. TRUST HIRASUGAR INSTITUTE OF TECHNOLOGY, NIDASOSHI Branch Code : EC

SL.NO	USN	Student Name	No Of Activity Conducted	Activity Details	Minimum Activity Points	Total Obtained Points
1	2HN18EC001	ABHISHEK HERAGE	4	<p>A10 => A critical component in any waste management program is public awareness and participation, in addition to appropriate legislation, strong technical support and adequate funding. The use of four different colour dustbins and their purposes were explained to them.</p> <p>A14 => Health systems and polices have a critical role in determining the manner in which health services are delivered, utilized and affect health outcomes.</p> <p>A3 => Water scarcity is serious problem throughout the world. Rain water harvesting is defined as process of augmenting the natural infiltration of rain water in to ground by some artificial methods</p> <p>A8 => People have been informed about the different platforms which facilitates online or digital money transaction like BHIM, Google, Make ny trip, SBI collect, Net Banking apps.</p>	50	80

2	2HN18EC002	AISHWARYA A YASHWANT	4	<p>A1 => These kind of orientation programs will really help the students to score good results and also motivate the students to work towards achievement of goals.</p> <p>A14 => Health systems and polices have a critical role in determining the manner in which health services are delivered, utilized and affect health outcomes.</p> <p>A15 => To accelerate the efforts to achieve universal sanitation coverage and to put focus on sanitation, the PMO of India launched the Swatch Bharat Mission. In support our Prime Minister efforts we did this activity</p> <p>A3 => Water scarcity is serious problem throughout the world. Rain water harvesting is defined as process of augmenting the natural infiltration of rain water in to ground by some artificial methods</p>	50	80
3	2HN18EC003	AKASH DHANG	4	<p>A10 => A critical component in any waste management program is public awareness and participation, in addition to appropriate legislation, strong technical support and adequate funding. The use of four different colour dustbins and their purposes were explained to them.</p> <p>A14 => Health systems and polices have a critical role in determining the manner in which health services are delivered, utilized and affect health outcomes.</p> <p>A3 => Water scarcity is serious problem throughout the world. Rain water harvesting is defined as process of augmenting the natural infiltration of rain water in to ground by some artificial methods</p> <p>A8 => People have been informed about the different platforms which facilitates online or digital money transaction like BHIM, Google, Make ny trip, SBI collect, Net Banking apps.</p>	50	80

4	2HN18EC005	AKSHATA M PATIL	4	<p>A1 => These kind of orientation programs will really help the students to score good results and also motivate the students to work towards achievement of goals.</p> <p>A10 => A critical component in any waste management program is public awareness and participation, in addition to appropriate legislation, strong technical support and adequate funding. The use of four different colour dustbins and their purposes were explained to them.</p> <p>A14 => Health systems and polices have a critical role in determining the manner in which health services are delivered, utilized and affect health outcomes.</p> <p>A8 => People have been informed about the different platforms which facilitates online or digital money transaction like BHIM, Google, Make ny trip, SBI collect, Net Banking apps.</p>	50	80
5	2HN18EC006	AMRUTA BOMMANAVAR	4	<p>A1 => These kind of orientation programs will really help the students to score good results and also motivate the students to work towards achievement of goals.</p> <p>A15 => To accelerate the efforts to achieve universal sanitation coverage and to put focus on sanitation, the PMO of India launched the Swatch Bharat Mission. In support our Prime Minister efforts we did this activity</p> <p>A3 => Water scarcity is serious problem throughout the world. Rain water harvesting is defined as process of augmenting the natural infiltration of rain water in to ground by some artificial methods</p> <p>A8 => People have been informed about the different platforms which facilitates online or digital money transaction like BHIM, Google, Make ny trip, SBI collect, Net Banking apps.</p>	50	80

6	2HN18EC007	ASHRAFI M ATTAR	4	<p>A1 => These kind of orientation programs will really help the students to score good results and also motivate the students to work towards achievement of goals.</p> <p>A10 => A critical component in any waste management program is public awareness and participation, in addition to appropriate legislation, strong technical support and adequate funding. The use of four different colour dustbins and their purposes were explained to them.</p> <p>A3 => Water scarcity is serious problem throughout the world. Rain water harvesting is defined as process of augmenting the natural infiltration of rain water in to ground by some artificial methods</p> <p>A8 => People have been informed about the different platforms which facilitates online or digital money transaction like BHIM, Google, Make ny trip, SBI collect, Net Banking apps.</p>	50	80
7	2HN18EC008	BHAGYASHRI PATIL	4	<p>A1 => These kind of orientation programs will really help the students to score good results and also motivate the students to work towards achievement of goals.</p> <p>A15 => To accelerate the efforts to achieve universal sanitation coverage and to put focus on sanitation, the PMO of India launched the Swatch Bharat Mission. In support our Prime Minister efforts we did this activity</p> <p>A3 => Water scarcity is serious problem throughout the world. Rain water harvesting is defined as process of augmenting the natural infiltration of rain water in to ground by some artificial methods</p> <p>A8 => People have been informed about the different platforms which facilitates online or digital money transaction like BHIM, Google, Make ny trip, SBI collect, Net Banking apps.</p>	50	80

8	2HN18EC009	DEEPU URAMANATTI	4	<p>A10 => A critical component in a waste management program is public awareness and participation, in addition to appropriate legislation, strong technical support and adequate funding. The use of four different colour dustbins and their purposes were explained to them.</p> <p>A14 => Health systems and polices have a critical role in determining the manner in which health services are delivered, utilized and affect health outcomes.</p> <p>A3 => Water scarcity is serious problem throughout the world. Rain water harvesting is defined as process of augmenting the natural infiltration of rain water in to ground by some artificial methods</p> <p>A8 => People have been informed about the different platforms which facilitates online or digital money transaction like BHIM, Google, Make ny trip, SBI collect, Net Banking apps.</p>	50	80
9	2HN18EC010	JAYASHREE MORE	4	<p>A1 => These kind of orientation programs will really help the students to score good results and also motivate the students to work towards achievement of goals.</p> <p>A15 => To accelerate the efforts to achieve universal sanitation coverage and to put focus on sanitation, the PMO of India launched the Swatch Bharat Mission. In support our Prime Minister efforts we did this activity</p> <p>A3 => Water scarcity is serious problem throughout the world. Rain water harvesting is defined as process of augmenting the natural infiltration of rain water in to ground by some artificial methods</p> <p>A8 => People have been informed about the different platforms which facilitates online or digital money transaction like BHIM, Google, Make ny trip, SBI collect, Net Banking apps.</p>	50	80

10	2HN18EC011	KIRAN KHADAKBHAVI	4	<p>A10 => A critical component in any waste management program is public awareness and participation, in addition to appropriate legislation, strong technical support and adequate funding. The use of four different colour dustbins and their purposes were explained to them.</p> <p>A14 => Health systems and polices have a critical role in determining the manner in which health services are delivered, utilized and affect health outcomes.</p> <p>A3 => Water scarcity is serious problem throughout the world. Rain water harvesting is defined as process of augmenting the natural infiltration of rain water in to ground by some artificial methods</p> <p>A8 => People have been informed about the different platforms which facilitates online or digital money transaction like BHIM, Google, Make ny trip, SBI collect, Net Banking apps.</p>	50	80
11	2HN18EC012	LAXMI MALLESHPA BADIGER	4	<p>A1 => These kind of orientation programs will really help the students to score good results and also motivate the students to work towards achievement of goals.</p> <p>A3 => Water scarcity is serious problem throughout the world. Rain water harvesting is defined as process of augmenting the natural infiltration of rain water in to ground by some artificial methods</p> <p>A7 => The conceptualization of Unnat Bharat Abhiyan started with the initiative of a group of dedicated faculty members of IIT Delhi working for long in area of rural development and appropriate technology.</p> <p>A8 => People have been informed about the different platforms which facilitates online or digital money transaction like BHIM, Google, Make ny trip, SBI collect, Net Banking apps.</p>	50	80

12	2HN18EC013	MAHANING NILAJAGI	4	<p>A10 => A critical component in () waste management program is public awareness and participation, in addition to appropriate legislation, strong technical support and adequate funding. The use of four different colour dustbins and their purposes were explained to them.</p> <p>A14 => Health systems and polices have a critical role in determining the manner in which health services are delivered, utilized and affect health outcomes.</p> <p>A3 => Water scarcity is serious problem throughout the world. Rain water harvesting is defined as process of augmenting the natural infiltration of rain water in to ground by some artificial methods</p> <p>A8 => People have been informed about the different platforms which facilitates online or digital money transaction like BHIM, Google, Make ny trip, SBI collect, Net Banking apps.</p>	50	80
13	2HN18EC014	MANJUNATH NINGAPPA KIUDANAVAR	4	<p>A10 => A critical component in any waste management program is public awareness and participation, in addition to appropriate legislation, strong technical support and adequate funding. The use of four different colour dustbins and their purposes were explained to them.</p> <p>A3 => Water scarcity is serious problem throughout the world. Rain water harvesting is defined as process of augmenting the natural infiltration of rain water in to ground by some artificial methods</p> <p>A5 => The aim of this activity is to orient the students to achieve good results with some easy methods and with some skills informing the students that how they can get handson on the technology</p> <p>A8 => People have been informed about the different platforms which facilitates online or digital money transaction like BHIM, Google, Make ny trip, SBI collect, Net Banking apps.</p>	50	80

14	2HN18EC016	NETRAJA PATIL	4	<p>A1 => These kind of orientation programs will really help the students to score good results and also motivate the students to work towards achievement of goals.</p> <p>A10 => A critical component in any waste management program is public awareness and participation, in addition to appropriate legislation, strong technical support and adequate funding. The use of four different colour dustbins and their purposes were explained to them.</p> <p>A14 => Health systems and polices have a critical role in determining the manner in which health services are delivered, utilized and affect health outcomes.</p> <p>A8 => People have been informed about the different platforms which facilitates online or digital money transaction like BHIM, Google, Make ny trip, SBI collect, Net Banking apps.</p>	50	80
15	2HN18EC017	PAVANKUMAR KAMBAR	4	<p>A10 => A critical component in any waste management program is public awareness and participation, in addition to appropriate legislation, strong technical support and adequate funding. The use of four different colour dustbins and their purposes were explained to them.</p> <p>A14 => Health systems and polices have a critical role in determining the manner in which health services are delivered, utilized and affect health outcomes.</p> <p>A3 => Water scarcity is serious problem throughout the world. Rain water harvesting is defined as process of augmenting the natural infiltration of rain water in to ground by some artificial methods</p> <p>A8 => People have been informed about the different platforms which facilitates online or digital money transaction like BHIM, Google, Make ny trip, SBI collect, Net Banking apps.</p>	50	80

16	2HN18EC018	POOJA S PHATINGE	4	<p>A1 => These kind of orientation programs will really help the students to score good results and also motivate the students to work towards achievement of goals.</p> <p>A3 => Water scarcity is serious problem throughout the world. Rain water harvesting is defined as process of augmenting the natural infiltration of rain water in to ground by some artificial methods</p> <p>A7 => The conceptualization of Unnat Bharat Abhiyan started with the initiative of a group of dedicated faculty members of IIT Delhi working for long in area of rural development and appropriate technology.</p> <p>A8 => People have been informed about the different platforms which facilitates online or digital money transaction like BHIM, Google, Make ny trip, SBI collect, Net Banking apps.</p>	50	80
17	2HN18EC019	PRATHAMESH SHANKAR KHADAKE	4	<p>A1 => These kind of orientation programs will really help the students to score good results and also motivate the students to work towards achievement of goals.</p> <p>A15 => To accelerate the efforts to achieve universal sanitation coverage and to put focus on sanitation, the PMO of India launched the Swachh Bharat Mission. In support our Prime Minister efforts we did this activity</p> <p>A3 => Water scarcity is serious problem throughout the world. Rain water harvesting is defined as process of augmenting the natural infiltration of rain water in to ground by some artificial methods</p> <p>A8 => People have been informed about the different platforms which facilitates online or digital money transaction like BHIM, Google, Make ny trip, SBI collect, Net Banking apps.</p>	50	80

18	2HN18EC020	PRIYA KADAKOL	4	<p>A1 => These kind of orientation programs will really help the students to score good results and also motivate the students to work towards achievement of goals.</p> <p>A10 => A critical component in any waste management program is public awareness and participation, in addition to appropriate legislation, strong technical support and adequate funding. The use of four different colour dustbins and their purposes were explained to them.</p> <p>A14 => Health systems and polices have a critical role in determining the manner in which health services are delivered, utilized and affect health outcomes.</p> <p>A8 => People have been informed about the different platforms which facilitates online or digital money transaction like BHIM, Google, Make ny trip, SBI collect, Net Banking apps.</p>	50	80
19	2HN18EC022	RAMAKUMAR KAMAGOUDA	4	<p>A1 => These kind of orientation programs will really help the students to score good results and also motivate the students to work towards achievement of goals.</p> <p>A10 => A critical component in any waste management program is public awareness and participation, in addition to appropriate legislation, strong technical support and adequate funding. The use of four different colour dustbins and their purposes were explained to them.</p> <p>A3 => Water scarcity is serious problem throughout the world. Rain water harvesting is defined as process of augmenting the natural infiltration of rain water in to ground by some artificial methods</p> <p>A8 => People have been informed about the different platforms which facilitates online or digital money transaction like BHIM, Google, Make ny trip, SBI collect, Net Banking apps.</p>	50	80

20	2HN18EC023	RANJEETA PATIL	4	<p>A1 => These kind of orientation programs will really help the students to score good results and also motivate the students to work towards achievement of goals.</p> <p>A15 => To accelerate the efforts to achieve universal sanitation coverage and to put focus on sanitation, the PMO of India launched the Swatch Bharat Mission. In support our Prime Minister efforts we did this activity</p> <p>A3 => Water scarcity is serious problem throughout the world. Rain water harvesting is defined as process of augmenting the natural infiltration of rain water in to ground by some artificial methods</p> <p>A8 => People have been informed about the different platforms which facilitates online or digital money transaction like BHIM, Google, Make ny trip, SBI collect, Net Banking apps.</p>	50	80
21	2HN18EC024	RAVIKIRAN TANAJI KADAM	4	<p>A1 => These kind of orientation programs will really help the students to score good results and also motivate the students to work towards achievement of goals.</p> <p>A15 => To accelerate the efforts to achieve universal sanitation coverage and to put focus on sanitation, the PMO of India launched the Swatch Bharat Mission. AICTE Activity Report

College Name: **S.J.P.N. TRUST HIRASUGAR INSTITUTE OF TECHNOLOGY, NIDASOSHI** Branch Code : **CS**

SL.NO	USN	Student Name	No Of Activity Conducted	Activity Details	Minimum Activity Points	Total Obtained Points
--------------	------------	---------------------	---------------------------------	-------------------------	--------------------------------	------------------------------

1	2HN18CS001	AISHWARYA GUNDOLI	4	<p>A1 => The activity helping local schools to achieve good results and enhancing good results was necessary for the students and schools. Because of this orientation program the students will get a direction to study and it will definitely help them to achieve good results. Because of this orientation program students will get to know the importance of communication skills along with good marks.</p> <p>A10 => Waste management involves a process whereby wastes are collected, transported and disposed of in the best possible way of limiting or eliminating the harmful effect of wastes. This aspect of environmental management is as important as other public amenities or infrastructures without which the life of contemporary man would be extremely difficult</p> <p>A15 => An activity done is based on "Swachh Bharat Abhiyan". I carried out this activity for 14 days from 21st September 2021 to 04th October 2021. The activity was carried out by me in Sunadholi. I had written request letter to the respective authorities of the selected areas and after they permitted, we had cleaned the temples, public gardens and government hospital and gave the awareness about cleanliness to the people in order to achieve the "Swachh Bharat Mission".</p> <p>A8 => Digital payment system in India, has shown tremendous growth, but still has lot to be done to increase its usage. 24*7 service, time saving, convenience and security factors contribute to strengthen the digital payment system. Digital transactions and mobile wallets, with more secured features, reduced cost of managing and ease of transaction in digital payments are the probable developments in digital payments all over the world.</p>	50	80
---	------------	-------------------	---	--	----	----

2	2HN18CS002	AMOGHA M DESAI	4	<p>A1 => The intention to conduct this activity was to enhance and encourage the student to score good marks and to give right path to plan their future goal. Courses after 10th - Students who have completed their class 10 must plan for the next stage of studying which means choosing one from the many courses after 10th.</p> <p>A15 => The study on Implementation of Swachh Bharat Abhiyan Project was conducted to assess the impact of the program on community along with evaluate the skill of functionaries. The finding suggests that community members were inclined cleanliness program and desired maintain continuity of activities conducted.</p> <p>A7 => Rural entrepreneurship is the way of converting developing country into developed nation. Promotion of rural entrepreneurship is extremely important in the context of producing gainful employment and reducing the widening disparities between the rural and urban.</p> <p>A8 => Activity conducted on the topic "Creating awareness and facilitating digital money transactions. It works on the basis of online banking is one of the most important financial activity which will be carried out by any person who holds the bank account. There are various activity that can be carried out once you login to bank account.</p>	50	80
---	------------	----------------	---	--	----	----

3	2HN18CS003	ANUSHA BASAVARAJ AMBIGER	<p>4</p> <p>A10 => Waste management is an important issue that needs governmental action quickly. At present there is very little awareness exists regarding this issue in our society. The practices of bringing forth waste are too risky not only for today but they could be dangerous for our future generation.</p> <p>A14 => To prepare and implement health parameters among villagers". According to WHO more than half of world's population lives in villages and rural areas. It is a challenging for the health care workers to protect and improve the health in rural areas.</p> <p>A3 => The present study has investigated the rain water harvesting importance and created awareness implementing rain water harvesting techniques among higher secondary school students in Nidasoshi village of Belagavi district.RainWater Harvesting is today's need of the whole world.</p> <p>A8 => Activity conducted on the topic "Creating awareness and facilitating digital money transactions. It works on the basis of online banking is one of the most important financial activity which will be carried out by any person who holds the bank account. There are various activity that can be carried out once you login to bank account</p>	50	80
